

Hello dear **co-creator**, I've done my part in creating these art pieces now it's up to you to bring them to life. Feel free to use your desired coloring style. You can print out the whole document at once or individual pages. The medium you use is up to you, but if you're using plain copy paper alcohol markers or watercolors might not be the best option.

I hope you'll have lots of fun coloring this coloring book as much as I did creating it for you.

Feel free to share your done art pieces on social media using #COLORFORFUN and tag me @missing.in.art so I can appreciate your art as well.

Thank you for purchasing this coloring book. I hope you are having fun coloring it as did I creating it.

"Why is coloring good for you?"

While you color your brain experiences relief and you enter a meditative state. It reduces stress and anxiety. It mutes negative thoughts and it makes you to focus in the present moment.

Coloring is not age restricted, anyone can pick up a coloring book and colored pencils, and enjoy the process of coloring with their own color choices and coloring techniques.

It is a great hobby that you can take with you where ever you go.
